

## Public Announcement

The Department of Vermont Health Access (DVHA) is filing Vermont Medicaid State Plan Amendment (SPA) #15-013 to change payment for evaluation & management services and vaccine administration services for eligible primary care providers pursuant to legislative dollars appropriated for investing in primary care services. Effective July 1, 2015, the DVHA will pay eligible primary care physicians who meet criteria previously set forth by the Centers for Medicare and Medicaid Services using a conversion factor of \$29.92 for covered evaluation & management and immunization administration services. The fiscal impact of these changes is an estimated annualized increase of \$1,000,667.

The Medicaid State Plan is being changed because it is one of the documents that providers rely upon for notice of payment methodologies and rates made by DVHA. The State Plan is also the guiding document for changes applicable to the Children's Health Insurance Program (CHIP). The methodology changes in this Announcement will also apply to the Global Commitment (GC) to Health Waiver population. Changes to the GC population are being made pursuant to the flexibility authorized under the GC Waiver, specific to Sections 1902(a)(13) and 1902(a)(30) of the Social Security Act, which allows the State, through DVHA, to establish rates with providers on an individual or class basis without regard to the rates currently set forth in the approved State Plan. The GC Waiver can be viewed at:

The draft SPAs provide additional details on the proposed changes; copies of the draft SPAs can be requested from local Department for Children and Families (DCF) offices or from DVHA at (802) 879-5937, or can be found on the DVHA website:
