Drilldown Report Mockups:

Percent of Patients with a Measure Result by Month Over the Last 12 Months

Measure: (measure name)

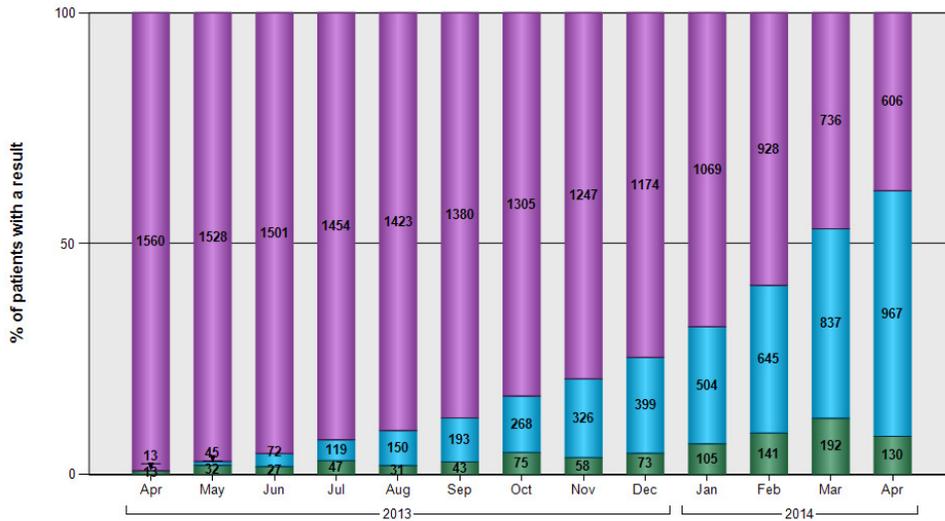

Site: (site name)

Report Run Date: (date/time)

Report Data Current as: (date/time)

*The stacked bar graph shows change with respect to when data were first obtained for a particular measure over a rolling 12 month timeframe. All patients eligible for this measure are included regardless of the measure goal or interval. Use this graph to track progress toward meeting performance of a process measure such as % of patients who have had an HbA1c test in the last year.

Click on a number under "Most Recent Month Information" for reports based on the population of patients in that category.

Most Recent Month Information:

of Patients without a result in the last 12 months: 606

of Patients with a result in the last 12 months (includes patients with a result in the last month): 967

of Patients with a result in the last month: 130
