Trainings will be based on the Contractor's understanding, with direction from State staff, of the federal and state political and regulatory health care reform environment and the related management challenges that the State must meet to ensure the successful implementation and ongoing operation of the Vermont Health Benefit Exchange and other health care reform initiatives. Some challenges include, but are not limited to: time constraints, large program regulations, managing four large-scale transformation projects simultaneously, and monitoring the impacts of these projects on State staff and Vermonters. State government officials must have the knowledge, skills and abilities to create and manage complex system changes in an organization, as well as evaluate whether they are successful. This includes, but is not limited to: IT, business processes, and culture change.

The executive education program shall be comprised of a series of 6 workshops, including one full-day kick off workshop and five half-day workshops to follow. The program will focus on tactical strategies that the State will be able to incorporate into their health care reform initiatives. These workshops will occur no more frequently than monthly but no less than quarterly. The full-day kick off meeting will occur in June 2013, with a specific date to be determined by the State and Contractor collectively. The series will run through January 2014, with the last half-day training occurring no later than January 2014, and will address specific topics to be defined by the State and Contractor collectively through pre-training conference calls occurring in the weeks prior to each session. The specific dates and times will be determined and scheduled by the State and Contractor collectively dependent upon availability of both parties. It has been determined by the State and agreed upon by the Contractor that all workshops in the series will be held in State Offices in Vermont at locations to be determined and arranged by, and at the rental expense of, the State, in either Chittenden or Washington County, which will require the Contractor to travel to Vermont.
