for Health. To support the implementation of this intent, the Grantee shall meet with all primary care practices in the HSA in order to introduce the Blueprint for Health, assess and monitor their needs for initial recognition or reassessment as advanced primary care practices through the NCQA PCMH standards, and encourage their participation in the Blueprint for Health and learning health system activities. The Project Manager will monitor the status of each primary care practice as an NCQA PCMH and integration of CHT staff into each practice.

In collaboration with the practice facilitators, the Project Manager will also support primary care practices in implementing quality improvement initiatives through activities including:

The Grantee shall interact on a regular basis with advisors and community partners for ongoing planning, development, and expansion of CHTs, who shall be representatives of local community health and human services agencies, ACOs, and other stakeholders. Partners invited to participate in these interactions should include, but are not limited to:

In consultation with the advisors and community partners, the Grantee shall continue to update the CHT staffing design.

C.2. Core CHT

The Grantee shall plan, implement and oversee the area CHTs designed to improve the health of the region's population, reduce expenditures, and improve the patient's experience of care. This work is to be undertaken in collaboration with a wide array of community service partners and stakeholders as described in Section C.1. above. The practices served by the CHT must participate in and approve of the CHT staffing. The Grantee shall provide organizational support for the operations of the CHTs, including recruitment, hiring (or subcontracting), and ongoing mentoring and supervision of team members and the team leader. Recruitment and hiring should occur according to timeframes that provide for staffing increases when Blueprint payer CHT funding increases.

The Grantee shall be aware that the Core CHT is funded through CHT payments from the public and commercial payers (Blue Cross Blue Shield of Vermont, Cigna Corporation, and MVP Health Care) as delineated in contracts #24633, #24633, and #24641 as amended. These contracts also detail the timing of CHT payments and how funding for the core CHT is scaled to the number of unique Vermont patients attributed to participating Blueprint practices.

The Grantee shall ensure that all CHT staff working in the HSA contributes required CHT patient encounter and activity data elements to the State's clinical registry/care management system (currently Covisint DocSite) either via interface, flat file transfer, or direct manual entry. CHT staff must perform this data entry for at least 30 days before the Grantee may invoice for Project Management milestone payments. The Grantee shall also enter CHT staffing data in the Blueprint Provider Directory as required by the State.

C.3. Extended and Functional CHTs

The Grantee shall coordinate the operations of the Core CHT (the staff supported by the funding from the insurance payers) with Extended and Functional CHTs and shall develop collaborative relationships between the Core CHT and the Extended and Functional CHTs as outlined in the deliverables below. The Extended CHT activities include Medication Assisted Treatment (Spoke staff), Support and Services at Home (SASH), and insurer and ACO care managers, including the Vermont Chronic Care Initiative (VCCI). The Functional CHT includes key local health and human services providers.

The Grantee in collaboration with extended and functional CHT members shall document and inform the State of the:

- Respective roles of the Core CHT, Extended CHTs, and Functional CHT
 - Clear referral protocols and methods of communication between the Core CHT, Extended CHTs, and Functional CHT
- Well-coordinated and non-duplicative services for participants

Medication Assisted Treatment

Medication Assisted Treatment (MAT) is the use of medications, in combination with counseling and behavioral therapies, to provide a whole-patient approach to the treatment of substance abuse disorders.

The Grantee shall plan, coordinate, and implement the hiring and placement of (or subcontracting for) nurse case management and licensed substance abuse and/or mental health clinicians with local physicians who prescribe buprenorphine in the Grantee's health service area. The MAT staff may be hired by the Grantee or subcontracted by the Grantee, as approved by the State. The MAT staff will work as a team with prescribing physicians to monitor adherence to treatment, coordinate access to recovery supports, provide counseling and health promotion services, and provide comprehensive care management to patients receiving MAT.

The MAT staff will document their activities in the practice's clinical record. In addition, the Spoke staff, with assistance from the Project Manager, will document the Health Home quality measures, participate in program evaluation, and participate in relevant learning collaboratives as determined by the State. The State will provide funds for one licensed nurse care manager and one licensed substance abuse and/or mental health clinician for every 100 Medicaid beneficiaries receiving buprenorphine prescribed by HSA physicians. The State will provide financing for MAT staff through the CHT payments mechanism. There will be no patient co-payments or fees for these services to assure barrier-free access to these services for patients and providers.

Support and Services at Home (SASH)

Under the Multi-payer Advanced Primary Care Practice Demonstration project (MAPCP), Medicare supports the Support and Services at Home (SASH) program as part of the Blueprint CHTs. SASH teams supplement core CHT functions by providing intensive, multi-disciplinary, team-based, non-medical wellness and coordination of care support to Medicare beneficiaries in Vermont. The Designated Regional Housing Organizations (DRHOs) administer SASH locally and are responsible for hiring and supervising SASH staff.

Insurer and ACO Care Managers

Care managers for both public and private insurers and ACOs supplement core CHT functions by providing clinical case management and support services to individuals identified as currently or potentially at risk for poor health outcomes and thus high healthcare costs.

For example, the Vermont Chronic Care Initiative (VCCI) focuses on the highest cost Medicaid beneficiaries to assist them in better managing their healthcare.

The Grantee shall ensure that all CHTs coordinate with insurer care managers and shall implement policies and guidelines requiring:

- Identification of care coordinators in the HSA for different populations of patients
- Determination of lead care coordinator for shared patients
- Joint care plans and agreements for managing shared patients
- Reciprocal referral protocols and methods of communication
- Mechanisms for risk stratification and algorithms for determining which care managers will provide the care for which patient populations at what level of acuity

Functional CHT: Interface with area health and human services agencies and ACOs

The Blueprint Core CHT is a unique interdisciplinary team designed to support the general population. The Grantee shall help ensure coordination of care by supporting a Functional CHT consisting of key local health and human services agencies and ACOs, facilitating communication that reduces duplication of effort and enables the effective rendering of services. Key local providers include, but are not limited to, the local Home Health Agency, Designated Mental Health Agency, addictions treatment providers, Children's Integrated Services (CIS) team, Enhanced Family Services (EFS) team, and ACOs.

Grant Deliverables

- X. Annual review and documentation of coordination and referral protocols between the Core CHT and the MAT staff, SASH program, insurer and ACO care managers, Home Health Agency, Designated Mental Health Agency, primary care practices, and other area service providers
- XI. Verification of the accuracy of CHT and MAT (Spoke) staffing information entered in the Blueprint Provider Directory on a quarterly basis, including required updates based on staffing changes. Reports tracking progress are run by the State quarterly.
- XII. Upon execution of this grant agreement, the Grantee shall ensure that all required CHT patient encounter and activity data elements are being captured in the State's clinical registry (via interface, flat file, or direct manual entry) 30 days prior to invoicing for Project Management milestone payments.

D. Health Information Technology Interface with State Health Information Exchange and Clinical Registry

The Grantee shall support the implementation of Health Information Technology (HIT) architecture in the Grantee's HSA through the following activities:

Grantee shall:

- Engage clinicians in initial and ongoing data quality efforts, including Blueprint Sprint projects, if needed, for both demographic and clinical data entry and maintenance in source Electronic Health Record (EHR) systems. "Sprint" project means a clinical site selected to a focused activities to improve end-to-end data integrity
- Ensure linkage of health records (such as practice EHRs), the State's clinical registry, hospital laboratory feeds, and the Vermont Department of Health (VDH) immunization registry) with the Vermont Health Information Exchange (VHIE) operated by Vermont Information Technology Leaders (VITL)
- Develop an architecture that allows clinicians to use the clinical tracking system of their choice (meaning EHR and/or systems or reports offered by the State) for patient care, care coordination, panel management, and performance reporting
- Populate a central repository with core data elements through usual processes for patient care, such as through interfaces or flat files from the EHR or other databases

- Capture CHT measures, especially patients touched and time spent per patient based on conditions, in a central repository for activity reporting to insurers and for analysis of staffing ratios
- Use clinical data for Blueprint program evaluation
- Maintain data quality levels on an ongoing basis after completion of initial data quality work (Sprints) and connectivity to the State HIT architecture

The Grantee shall coordinate local activities with VITL, the State's clinical registry vendor, and Sprint project leaders on data quality and connectivity efforts to establish clean data transmission to the VHIE and the State's clinical registry for owned practices and participating community-based practices and Spoke providers. The Grantee will work with VITL to ensure that the necessary business associate agreements (BAAs) with VITL, the State's clinical registry vendor, and the practices are in place.

The Grantee shall convene meetings as necessary to develop health information technology interfaces, including individual practice interfaces with the VHIE and/or practice interfaces directly with the State's clinical registry. Payments will be provided for the Grantee to assist in facilitating the implementation and/or refinement of interfaces that result in successful practice reporting.

The Grantee shall help organize and support activities to ensure initial population of the State's clinical registry, mapping to the VHIE and/or the registry from practice EHRs, and data quality for accurate reporting from the registry and/or the practice EHR. These activities, including initial assessment, setting priorities for data remediation or reporting, use of interfaces, and completion of Sprints, will be done in collaboration with VITL, Sprint project leaders, and the State's clinical registry vendor.

Grant Deliverables

- XIII. Progress on practice-level IT implementation, evidenced by the number of practices that participate in a data quality initiative (Sprint) and/or connect Admit/Discharge/Transfer (ADT) (demographic) or Continuity of Care Document (CCD) interfaces to the VHIE (Vermont Health information Exchange) and/or Vaccination Update (VXU) interfaces to the VDH registry
- XIV. Evidence that practices have the capacity through their EHR or the State's clinical registry to produce accurate and reliable reports for panel management and quality improvement and who use the system on a regular basis with proven provider satisfaction.

Eligibility for the following milestone payments is contingent upon proven ongoing contribution of CHT patient encounter data into the State's clinical registry or other designated data collection tool as specified by the State. Data may be entered manually, via an interface from an EHR, or via a flat file data transfer from an EHR or another data collection system. For milestone payment eligibility, encounter data should be entered and up-to-date at least 30 days prior to the end of each quarter.

Blueprint Sponsored Self-Management Programs

The Blueprint sponsored self-management budget supports the salary and benefits of the Regional Coordinator, plus all other expenses to implement the workshops, including, but not limited to, marketing, leader stipends, materials, book and CDs for participants, and facility expenses. The Grantee may invoice the State monthly up to the sum of \$2,500, up to a maximum total of \$30,000 (base payment) per year, for self-management activities in Section G, if at least 10 workshops that meet minimum registration requirements are provided, based on expenses incurred and completion of grant deliverables.

The Grantee will be paid up to the maximum amount allocated under Self-Management Programs contained in the included budget. Funding amounts shall be reduced if the target number of at least 10 workshops is not offered. Additionally, base payments and completer payments shall not be issued for workshops hosted and begun without the minimum number of registrants (10 for HLW, WRAP, and DPP; 5 for Tobacco).

9. In the event that the Grantee:
 - is unable to meet a milestone and will not achieve the milestone payment;
 - invoices for actual expenses of a monthly payment less than the allowed maximum amount;
 - or the Grantee becomes aware they will expend less than the budgeted amount for any line item in the grant,

the Grantee shall report the total underspent amount on the Financial Reporting Form, Appendix I.

Business Associate shall continue to provide to Covered Entity information concerning the Breach as it becomes available to it. Business Associate shall require its Subcontractor(s) to agree to these same terms and conditions.

6.3 When Business Associate determines that an impermissible acquisition, use or disclosure of PHI by a member of its workforce is not a Breach, as that term is defined in 45 CFR § 164.402, and therefore does not necessitate notice to the impacted individual(s), it shall document its assessment of risk, conducted as set forth in 45 CFR § 402(2). When requested by Covered Entity, Business Associate shall make its risk assessments available to Covered Entity. It shall also provide Covered Entity with 1) the name of the person(s) making the assessment, 2) a brief summary of the facts, and 3) a brief statement of the reasons supporting the determination of low probability that the PHI had been compromised. Business Associate shall draft and carry out a plan of corrective action to address any incident of impermissible use or disclosure of PHI. If requested by Covered Entity, Business Associate shall make its mitigation and corrective action plans available to Covered Entity. Business Associate shall require a Subcontractor to agree to these same terms and conditions.

8. **Providing Notice of Breaches.**

8.1 If Covered Entity determines that an impermissible acquisition, access, use or disclosure of PHI for which one of Business Associate's employees or agents was responsible constitutes a Breach as defined in 45 CFR § 164.402, and if requested by Covered Entity, Business Associate shall provide notice to the individual(s) whose PHI has been the subject of the Breach. When requested to provide notice, Business Associate shall consult with Covered Entity about the timeliness, content and method of notice, and shall receive Covered Entity's approval concerning these elements. The cost of notice and related remedies shall be borne by Business Associate.

8.2 If Covered Entity or Business Associate determines that an impermissible acquisition, access, use or disclosure of PHI by a Subcontractor of Business Associate constitutes a Breach as defined in 45 CFR § 164.402, and if requested by Covered Entity or Business Associate, Subcontractor shall provide notice to the individual(s) whose PHI has been the subject of the Breach. When Covered Entity requests that Business Associate or its Subcontractor provide notice, Business Associate shall either 1) consult with Covered Entity about the specifics of the notice as set forth in section 8.1, above, or 2) require, by contract, its Subcontractor to consult with Covered Entity about the specifics of the notice as set forth in section 8.1

8.3 The notice to affected individuals shall be provided as soon as reasonably possible and in no case later than 60 calendar days after Business Associate reported the Breach to Covered Entity.

8.4 The notice to affected individuals shall be written in plain language and shall include, to the extent possible, 1) a brief description of what happened, 2) a description of the types of Unsecured PHI that were involved in the Breach, 3) any steps individuals can take to protect themselves from potential harm resulting from the Breach, 4) a brief description of what the Business Associate is doing to investigate the Breach, to mitigate harm to individuals and to protect against further Breaches, and 5) contact procedures for individuals to ask questions or obtain additional information, as set forth in 45 CFR § 164.404(c).

8.5 Business Associate shall notify individuals of Breaches as specified in 45 CFR § 164.404(d) (methods of individual notice). In addition, when a Breach involves more than 500 residents of Vermont, Business Associate shall, if requested by Covered Entity, notify prominent media outlets serving Vermont, following the requirements set forth in 45 CFR § 164.406.

9. Agreements with Subcontractors. Business Associate shall enter into a Business Associate Agreement with any Subcontractor to whom it provides PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity in which the Subcontractor agrees to the same restrictions and conditions that apply through this Agreement to Business Associate with respect to such PHI. Business Associate must enter into this Business Associate Agreement before any use by or disclosure of PHI to such agent. The written agreement must identify Covered Entity as a direct and intended third party beneficiary with the right to enforce any breach of the agreement concerning the use or disclosure of PHI. Business Associate shall provide a copy of the Business Associate Agreement it enters into with a subcontractor to Covered Entity upon request. Business associate may not make any disclosure of PHI to any Subcontractor without prior written consent of Covered Entity.

10. Access to PHI. Business Associate shall provide access to PHI in a Designated Record Set to Covered Entity or as directed by Covered Entity to an Individual to meet the requirements under 45 CFR § 164.524. Business Associate shall provide such access in the time and manner reasonably designated by Covered Entity. Within three (3) business days, Business Associate shall forward to Covered Entity for handling any request for access to PHI that Business Associate directly receives from an Individual.

11. Amendment of PHI. Business Associate shall make any amendments to PHI in a Designated Record Set that Covered Entity directs or agrees to pursuant to 45 CFR § 164.526, whether at the request of Covered Entity or an Individual. Business Associate shall make such amendments in the time and manner reasonably designated by Covered Entity. Within three (3) business days, Business Associate shall forward to Covered Entity for handling any request for amendment to PHI that Business Associate directly receives from an Individual.

12. Accounting of Disclosures. Business Associate shall document disclosures of PHI and all information related to such disclosures as would be required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 CFR § 164.528. Business Associate shall provide such information to Covered Entity or as directed by Covered Entity to an Individual, to permit Covered Entity to respond to an accounting request. Business Associate shall provide such information in the time and manner reasonably designated by Covered Entity. Within three (3) business days, Business Associate shall forward to Covered Entity for handling any accounting request that Business Associate directly receives from an Individual.

13. Books and Records. Subject to the attorney-client and other applicable legal privileges, Business Associate shall make its internal practices, books, and records (including policies and procedures and PHI) relating to the use and disclosure of PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity available to the Secretary in the time and manner designated by the Secretary. Business Associate shall make the same information available to Covered Entity, upon Covered Entity's request, in the time and manner reasonably designated by Covered Entity so that Covered Entity may determine whether Business Associate is in compliance with this Agreement.

14. Termination.

14.1 This Agreement commences on the Effective Date and shall remain in effect until terminated by Covered Entity or until all of the PHI provided by Covered Entity to Business Associate or created or received by Business Associate on behalf of Covered Entity is destroyed or returned to Covered Entity subject to Section 18.7.

14.2 If Business Associate breaches any material term of this Agreement, Covered Entity may either: (a) provide an opportunity for Business Associate to cure the breach and Covered Entity may terminate the contract or grant without liability or penalty if Business Associate does not cure the breach within the time specified by Covered Entity; or (b) immediately terminate the contract or grant without liability or penalty if Covered Entity believes that cure is not reasonably possible; or (c) if neither termination nor cure are feasible, Covered Entity shall report the breach to the Secretary. Covered Entity has the right to seek to cure any breach by Business Associate and this right, regardless of whether Covered Entity cures such breach, does not lessen any right or remedy available to Covered Entity at law, in equity, or under the contract or grant, nor does it lessen Business Associate's responsibility for such breach or its duty to cure such breach.

15. Return/Destruction of PHI.

15.1 Business Associate in connection with the expiration or termination of the contract or grant shall return or destroy, at the discretion of the Covered Entity, all PHI received from Covered Entity or created or received by Business Associate on behalf of Covered Entity pursuant to this contract or grant that Business Associate still maintains in any form or medium (including electronic) within thirty (30) days after such expiration or termination. Business Associate shall not retain any copies of the PHI. Business Associate shall certify in writing for Covered Entity (1) when all PHI has been returned or destroyed and (2) that Business Associate does not continue to maintain any PHI. Business Associate is to provide this certification during this thirty (30) day period.

15.2 Business Associate shall provide to Covered Entity notification of any conditions that Business Associate believes make the return or destruction of PHI infeasible. If Covered Entity agrees that return or destruction is infeasible, Business Associate shall extend the protections of this Agreement to such PHI and limit further uses and disclosures of such PHI to those purposes that

make the return or destruction infeasible for so long as Business Associate maintains such PHI. This shall also apply to all Agents and Subcontractors of Business Associate.

16. Penalties and Training. Business Associate understands that: (a) there may be civil or criminal penalties for misuse or misappropriation of PHI and (b) violations of this Agreement may result in notification by Covered Entity to law enforcement officials and regulatory, accreditation, and licensure organizations. If requested by Covered Entity, Business Associate shall participate in training regarding the use, confidentiality, and security of PHI.

17. Security Rule Obligations. The following provisions of this section apply to the extent that Business Associate creates, receives, maintains or transmits Electronic PHI on behalf of Covered Entity.

17.1 Business Associate shall implement and use administrative, physical, and technical safeguards in compliance with 45 CFR sections 164.308, 164.310, and 164.312 with respect to the Electronic PHI that it creates, receives, maintains or transmits on behalf of Covered Entity. Business Associate shall identify in writing upon request from Covered Entity all of the safeguards that it uses to protect such Electronic PHI.

17.2 Business Associate shall ensure that any Agent and Subcontractor to whom it provides Electronic PHI agrees in a written agreement to implement and use administrative, physical, and technical safeguards that reasonably and appropriately protect the Confidentiality, Integrity and Availability of the Electronic PHI. Business Associate must enter into this written agreement before any use or disclosure of Electronic PHI by such Agent or Subcontractor. The written agreement must identify Covered Entity as a direct and intended third party beneficiary with the right to enforce any breach of the agreement concerning the use or disclosure of Electronic PHI. Business Associate shall provide a copy of the written agreement to Covered Entity upon request. Business Associate may not make any disclosure of Electronic PHI to any Agent or Subcontractor without the prior written consent of Covered Entity.

17.3 Business Associate shall report in writing to Covered Entity any Security Incident pertaining to such Electronic PHI (whether involving Business Associate or an Agent or Subcontractor). Business Associate shall provide this written report as soon as it becomes aware of any such Security Incident, and in no case later than two (2) business days after it becomes aware of the incident. Business Associate shall provide Covered Entity with the information necessary for Covered Entity to investigate any such Security Incident.

17.4 Business Associate shall comply with any reasonable policies and procedures Covered Entity implements to obtain compliance under the Security Rule.

18. Miscellaneous.

18.1 In the event of any conflict or inconsistency between the terms of this Agreement and the terms of the contract/grant, the terms of this Agreement shall govern with respect to its subject matter. Otherwise, the terms of the contract/grant continue in effect.

18.2 Business Associate shall cooperate with Covered Entity to amend this Agreement from time to time as is necessary for Covered Entity to comply with the Privacy Rule, the Security Rule, or any other standards promulgated under HIPAA.

18.3 Any ambiguity in this Agreement shall be resolved to permit Covered Entity to comply with the Privacy Rule, Security Rule, or any other standards promulgated under HIPAA.

18.4 In addition to applicable Vermont law, the parties shall rely on applicable federal law (e.g., HIPAA, the Privacy Rule and Security Rule, and the HIPAA omnibus final rule) in construing the meaning and effect of this Agreement.

18.5 As between Business Associate and Covered Entity, Covered Entity owns all PHI provided by Covered Entity to Business Associate or created or received by Business Associate on behalf of Covered Entity.

18.6 Business Associate shall abide by the terms and conditions of this Agreement with respect to all PHI it receives from Covered Entity or creates or receives on behalf of Covered Entity even if some of that information relates to specific services for which Business Associate may not be a "Business Associate" of Covered Entity under the Privacy Rule.

18.7 Business Associate is prohibited from directly or indirectly receiving any remuneration in exchange for an individual's PHI. Business Associate will refrain from marketing activities that would violate HIPAA, including specifically Section 13406 of the HITECH Act. Reports or data containing the PHI may not be sold without Agency's or the affected individual's written consent.

18.8 The provisions of this Agreement that by their terms encompass continuing rights or responsibilities shall survive the expiration or termination of this Agreement. For example: (a) the provisions of this Agreement shall continue to apply if Covered Entity determines that it would be infeasible for Business Associate to return or destroy PHI as provided in Section 14.2 and (b) the obligation of Business Associate to provide an accounting of disclosures as set forth in Section 11 survives the expiration or termination of this Agreement with respect to accounting requests, if any, made after such expiration or termination.
