9. Day Health Rehabilitation Services

Day Health Rehabilitation Services are provided to individuals with physical or cognitive impairments who are not residing in a nursing home, nor receiving enhanced residential care services or other similar services. Day Health Rehabilitation Services are intended to maintain optimal functioning and prevent or delay the need for the level of services provided in a nursing facility. The services provided at a Day Health Rehabilitation Center are health assessment and screening, health monitoring and education, nursing, personal care, physical therapy, occupational therapy, speech therapy, social work, and nutrition counseling/services. Beneficiaries are determined eligible for Day Health Rehabilitation Services by the Department of Aging and Disabilities. The intensity of services provided to each individual is in accordance with the individual's plan of care and is provided under the supervision of a registered nurse.

The services are furnished by providers who meet the qualifications specified by the Department of Aging and Disabilities. Prior authorization of this service is required from the Department of Aging and Disabilities.

Reimbursement for Day Health Rehabilitation Services will not duplicate reimbursement from other State Plan, public or private funding sources.
