Introduction

Development of a detailed integration strategy for existing coverage groups and an administrative simplification plan are essential components for planning the transition from the current program to Vermont's model under Affordable Care Act (ACA) and subsequent transition to the model contemplated by Act 48.

Development of the integration strategy and administrative simplification plan will build on, as well as support, activities completed under the Exchange Planning Grant and contemplated for the other seven task areas for the Establishment Grant. Contractor will coordinate with State staff and other State contractors to ensure that planning and implementation efforts within each task area inform and complement each other.

Contractor will meet with State staff on a weekly basis in order to review the status of specific project activities, identify and discuss outstanding issues, and identify any additional areas for research or follow-up.

The final integration strategy and administrative simplification plan will require decision makers to evaluate and weigh (sometimes competing) factors. Contractor will provide decision makers with policy options and the potential impact of each identified option across these factors, including the potential impact on:

- Program Participants (eligibility, enrollment, benefits, cost sharing, transition across programs, or “churning”)
- Providers (payment, claims submission, prior approval)
- Employers and Associations
- Insurance Carriers
- Exchange Functions
- Act 48 Objectives
- State Staffing and Resources
- Information Technology
- Program and Administrative Costs/Savings (short term and long term).

I. Program Integration of Existing Coverage Groups

The State intends to develop a comprehensive strategy to integrate or align the following coverage programs with the Exchange in 2014:

- Public insurance programs, including the Global Commitment to Health Demonstration, the Choices for Care Demonstration, and the Children’s Health Insurance Program (CHIP), and coverage for individuals who are dually-eligible for Medicaid and Medicare,
- Insurance for correctional inmates,
- Private insurance (including municipal employees),
- ACA grandfathered Association Plans (including school employees), and
- Administrative functions for State employee plans.

Contractor will assist the State with development of a comprehensive integration strategy that provides guidance for the alignment of these programs, with specific attention on the following:

- Options for functional integration - including program eligibility staffing and systems - between the Exchange and each of the programs above. This will include an analysis of the potential impact of each identified option on:
 - Program Participants (eligibility, enrollment, benefits, cost sharing, transition across programs, or “churning”)
 - Providers (payment, claims submission, prior approval)
 - Employers and Associations
 - Insurance Carriers
 - Exchange Functions
 - State Staffing and Resources (impact on the other non-Exchange DVHA functions, the health care eligibility function in the Department for Children and Families (DCF), and the Department of Human Resources administrative functions for state employees).
 - Information Technology
 - Vermont’s 1115 demonstration waivers (transition plans, renewals or new demonstrations if needed)
 - Program and Administrative Costs/Savings (short term and long term).
 - Alignment of program policies and operational approaches that facilitate transition to Act 48 health reform

- Coordination of data/information sharing functions to support the Exchange
- Relevant initiatives available under ACA to assist with Program Integration
- Implementation timelines (to achieve integration with the Exchange by 2014 and alignment with Act 48 goals by 2017).

II. Administrative Simplification

The State intends to develop a comprehensive strategy to implement simplification of multiple aspects of the health insurance administrative process, from initial beneficiary eligibility processing to eligibility verification by providers to claims submission and payment. This strategy will of necessity need to focus on what can be achieved in the near term related to implementation of the ACA in Vermont but must also recognize the State’s long term goals under Act 48.

The State’s goal for administrative simplification is to reduce the growth in the costs of the health care system by:

- Decreasing the administrative burden at the health care provider’s office or facility
- Decreasing the administrative burden on beneficiaries regarding benefit management
- Decreasing the administrative burden for entities managing the coverage programs (i.e., the state, third party administrators and private insurance carriers)

To achieve this goal, administrative simplification should be considered within the following categories:

- Provider Data Management (e.g., credentialing, licensing, enrollment, contracting)
- Claims Management (e.g., eligibility and benefits verification, claims processing, coordination of benefits)
- Managed Care/Quality Management (e.g., pre-service reviews, prior authorizations, grievances and appeals)
- Member Data Management (eligibility, access to benefit information, ID cards)
- Other areas (e.g. worker’s compensation, VHCURES, supplemental insurance)

The Contractor will work with the State to develop a more detailed list of the items to be explored under

each category, based on the review of past and current simplification strategies undertaken by Vermont; input from providers, private carriers, the state and other stakeholders about administrative simplification opportunities; research on simplification strategies in other states; and opportunities within the ACA.

Once the detailed list is agreed upon, the Contractor will develop an administrative simplification plan that will contain the following information for each item explored:

1. Opportunities for efficiencies, barriers to change and strategies to resolve the barriers
2. An assessment of potential savings or cost avoidance due to implementation of the identified efficiency, including:
 - a. The reason for the savings or cost avoidance (e.g., increased/decreased staff or time, elimination of paperwork, etc.)
 - b. Identification of resources needed to implement the efficiency.
3. Steps and timelines to implement the identified efficiencies, with a focus on:
 - a. Short-term (by January 2014) or long-term implementation
 - b. Need for state law changes or federal waivers.

If requested by Covered Entity, Business Associate shall make its mitigation and corrective action plans available to Covered Entity.

17.4 In addition to applicable Vermont law, the parties shall rely on applicable federal law (e.g., HIPAA, the Privacy Rule and Security Rule) in construing the meaning and effect of this Agreement.

17.7 The provisions of this Agreement that by their terms encompass continuing rights or responsibilities shall survive the expiration or termination of this Agreement. For example: (a) the provisions of this Agreement shall continue to apply if Covered Entity determines that it would be infeasible for Business Associate to return or destroy PHI as provided in Section 14.2 and (b) the obligation of Business Associate to provide an accounting of disclosures as set forth in Section 11 survives the expiration or termination of this Agreement with respect to accounting requests, if any, made after such expiration or termination.
