

## Public Announcement

The Department of Vermont Health Access (DVHA) is submitting a Vermont Medicaid State Plan Amendment (SPA) #15-007, effective July 1, 2015, to clarify that adult day health services are not preventative services and to specify the amount, duration, scope, and qualifications of practitioners furnishing adult day health services. Adult day health services are also included in the Medicaid Alternative Benefit Plan (ABP) for the New Adult Group under the Affordable Care Act (ACA). This amendment to the ABP will be effective July 1, 2015 under SPA #15-009. The ABP replicates the full Medicaid State plan, and includes the 10 essential health benefits required under the ACA, as well as the full range of Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services for individuals under the age of 21. There is no fiscal impact as a result of this change.

The Medicaid State Plan is being changed because it is one of the documents that providers rely upon for notice of payment methodologies and rates made by DVHA. The State Plan is also the guiding document for changes applicable to the Children's Health Insurance Program (CHIP). The methodology changes in this Announcement will also apply to the Global Commitment (GC) to Health Waiver population. Changes to the GC population are being made pursuant to the flexibility authorized under the GC Waiver, specific to Sections 1902(a)(13) and 1902(a)(30) of the Social Security Act, which allows the State, through DVHA, to establish rates with providers on an individual or class basis without regard to the rates currently set forth in the approved State Plan. The GC Waiver can be viewed at:

The draft SPAs provide additional details on the proposed changes; copies of the draft SPAs can be requested from local Department for Children and Families (DCF) offices or from DVHA at (802) 879-5937, or can be found on the DVHA website:
