

**VERMONT BLUEPRINT PPM COMMON ATTRIBUTION ALGORITHM  
 COMMERCIAL INSURERS AND MEDICAID**

1. The look back period is the most recent 24 months for which claims are available.
2. Identify all members/beneficiaries who meet the following criteria as of the last day in the look back period:
  - Reside in Vermont for Medicaid (and Medicare);
  - Employer situated in Vermont or member/beneficiary residing in Vermont for commercial insurers (payers can select one of these options);
  - The insurer is the primary payer.
3. For products that require members/beneficiaries to select a primary care provider, attribute those members/beneficiaries to that provider if the provider is in a Blueprint-recognized practice.
4. For other members/beneficiaries, select all claims for beneficiaries identified in step 2 with the following qualifying CPT Codes in the look back period (most recent 24 months) for primary care providers included on Blueprint payment rosters, where the provider specialty is internal medicine, general medicine, geriatric medicine, family medicine, pediatrics, nurse practitioner, or physician assistant; or where the provider is an FQHC or Rural Health Clinic.

5. Assign a member/beneficiary to the practice where s/he had the greatest number of qualifying claims. A practice shall be identified by the NPIs of the individual providers associated with it.
6. If a member/beneficiary has an equal number of qualifying visits to more than one practice, assign the member/beneficiary to the one with the most recent visit.

7. Insurers can choose to apply elements in addition to 5. and 6. above when conducting their attribution. However, at a minimum use the greatest number of claims (5. above), followed by the most recent claim if there is a tie (6. above).
8. Insurers will run their attributions at least quarterly. Medicaid plans to continue to run their attribution monthly, and CIGNA plans to move from semi-annual to quarterly attribution in January of 2013.
9. Insurers will make PPPM payments at least quarterly, by the 15<sup>th</sup> of the second month of the quarter. CIGNA plans to move from semi-annual to quarterly payment in January of 2013. Base PPPM payments on the most current PPPM rate that insurers have received from the Blueprint prior to check production.
10. For insurers paying quarterly: if a new practice goes live in the third month of a quarter, add that practice to the attribution and payment schedule for the subsequent quarter. Payment would be made for the first month of participation, but it would be based on the attribution for the subsequent quarter and would be included in the subsequent quarter's payment. For example, if a practice becomes recognized on 3/1/2012, payment for 3/1/2012 through 6/30/2012 would occur by 5/15/12.
11. The attached spreadsheet outlines the quarterly attribution and payment schedule for 2012.
