**Introduction**

Pharmacy claims for Vermont’s publicly funded programs are processed by our pharmacy benefit management company Change Healthcare®).

This Provider Manual consists of a list of contacts, program-specific information, a list of informational resources and web links, and payer specifications. All of this material will be updated periodically as needed. For the most current version go to:

http://dvha.vermont.gov/for-providers

For Vermont’s purposes, here and hereafter all references to Vermont Medicaid will mean all current publicly funded health assistance programs that include a drug benefit (Medicaid, Dr. Dynasaur, VPharm, Healthy Vermonters, and General Assistance and VMAP, the HIV/AIDS Medication Assistance program).

Drug Coverage

General coverage rules are as follows:

Medicaid as a unique program covers most prescription drugs with the exceptions found here. General coverage conditions under Medicaid pharmacy and the pharmacy only programs can be found here.

Pharmacy Plan Designs – 2017

Some DVHA programs include full health insurance coverage. All include a pharmacy benefit. These programs include:

### DVHA Pharmacy Programs

</tbody>
</table>

Note: Effective August 1, 2009, DVHA will only cover the cost-sharing (deductible, donut hole and coinsurance) for select statins (HMG COA reductase inhibitors) and proton pump inhibitors (PPIs) for VPharm Part D-eligible beneficiaries. • Statins – all dosage strengths of simvastatin, lovastatin, atorvastatin, and pravastatin. • PPIs – omeprazole Rx, pantoprazole, and lansoprazole • Most of the drugs no longer covered by VPharm under this pilot do not require prior authorization (PA) from the Part D Plans. However, if a beneficiary obtains a PA from his/her Part D Plan, the drug will continue to be covered by VPharm. • VPharm coverage denials for non-covered drugs can be appealed, but only when a prescriber can provide, through the DVHA appeals process, a detailed explanation regarding drugs that were either found to be ineffective or resulted in adverse or harmful side effects, or were expected to be ineffective or result in harmful or adverse side effects.
**DVHA Over-The-Counter (OTC) Pharmacy Coverage**

<table>
<thead>
<tr>
<th>Program</th>
<th>Requirements</th>
</tr>
</thead>
</table>
| Vermont Medicaid, Dr. Dynasaur (Medicaid by 1115 Waiver), State Children's Health Insurance Program (SCHIP) | 1. Manufacturer rebate required.  
2. OTC coverage requires a prescription, and the drug must be part of the medical treatment for a specific current health problem.  
3. Prior authorization and other limitations of the Preferred Drug list (PDL) may apply.  
4. Coverage is limited to generic drug formulations except as specified in the PDL |
| VPharm 1 (100% State funded for deductible, coverage gap, coinsurance and copayments) | 1. Manufacturer rebate required.  
2. OTC coverage limited to those drugs that are not covered by PDP. A prescription is required, and the drug must be part of the medical treatment for a specific current health problem. There is no coverage for OTC proton pump inhibitors.  
3. Prior authorization and other limitations of the Preferred Drug list (PDL) may apply.  
4. Coverage is limited to generic drug formulations except as specified in the PDL |
| VPharm 2 & 3 (100% State funded for deductible, coverage gap, coinsurance and copayments) | 1. Maintenance drug coverage only.  
2. Manufacturer rebate required.  
3. OTC coverage limited to diabetic supplies, loratadine, cetirizine and non-steroidal anti-inflammatory analgesics (NSAIDS) when not covered by PDP. A prescription is required, and the drug must be part of the medical treatment for a specific current health problem.  
4. Prior authorization and other limitations of the Preferred Drug list (PDL) may apply.  
5. Coverage is limited to generic drug formulations. |
**Non-Covered Drugs:**

The following drugs/drug classes are not covered through the pharmacy benefit:

1. DESI drugs
2. Experimental drugs
3. Fertility agents
4. Drugs to treat erectile dysfunction
5. Weight loss drugs
6. Some OTCs (primarily brands)
7. Bulk Powders used in compounding (see page 12)

**Over-the-Counter Drugs:**

For Medicaid and VPharm I Members, OTC drugs are covered when medically necessary, prescribed by a qualified Medicaid provider, and a federal rebate agreement with the manufacturer is in force. Covered OTCs are limited primarily to generics, without the option of prior authorization for brand products. A list of covered OTC medication categories is published at [http://dvha.vermont.gov/for-providers](http://dvha.vermont.gov/for-providers).

For VPharm II and III Members: VPharm II and III benefit plans have limited OTC coverage. See DVHA’s Program Coverage document at [http://dvha.vermont.gov/for-providers](http://dvha.vermont.gov/for-providers).

Some supplies may be submitted through POS (e.g., diabetic supplies and family planning supplies). The supply must have a corresponding NDC.

Nutritional supplements (liquid nutritionals): Nutritional supplements may be submitted via the POS system but do require Prior Authorization. Refer to the specific prior authorization form for Nutritional Supplements.
**DME Products:**

Most DME supplies should be submitted to DVHA on DVHA’s DME prior authorization form, which can be found at [http://dvha.vermont.gov/for-providers/mnf-revised-09-14.pdf](http://dvha.vermont.gov/for-providers/mnf-revised-09-14.pdf). These DME products are reviewed by the DVHA Clinical Operations Unit and should be faxed to 802-879-5963. Exceptions are lancets, test strips, syringes, and spacers, which can be submitted through the pharmacy benefit. A complete list of preferred diabetic supplies can be found on the DVHA website at: [http://dvha.vermont.gov/for-providers/pharmacy](http://dvha.vermont.gov/for-providers/pharmacy).

Diapers are covered through the DVHA Medical Benefit. PA is required when the request is for 300 or more units (a combination of chucks, pads and diapers). The prior authorization form can be found at [http://dvha.vermont.gov/for-providers/incontinence-supplies-081116.pdf](http://dvha.vermont.gov/for-providers/incontinence-supplies-081116.pdf)

Diaper requests should also be faxed to (802) 879-5963.

**Rebate Requirements:**

Drug coverage is contingent upon CMS rebate agreements with the manufacturers. The VPharm program (Part D “wrap” coverage) is a qualified State Pharmaceutical Assistance Program (SPAP). Vermont statute requires that manufacturers pay pro-rated SPAP rebates that are at least as favorable as the CMS rebates paid to the state for its Medicaid program.
Vaccines and Vaccine Administration:

1. Influenza Vaccines

DVHA-enrolled pharmacies may be reimbursed for specific injectable influenza vaccinations administered by pharmacists to adults 19 years and older that are enrolled in Vermont’s publicly funded programs. Pharmacists must be certified to administer vaccines in the state of Vermont and must be in compliance with all Vermont laws governing vaccine administration. Failure to comply with all Vermont immunization regulations will subject these claims to recoupment.

Children age 6 months through 18 years presenting for flu vaccination at pharmacies should be referred to their health care provider for State-supplied vaccine.

Reimbursement and billing for adults 19 years and older: Pharmacies are reimbursed for the ingredient cost of the flu vaccine as well as an administration fee. No dispensing fee is paid for these claims.

Reimbursement will be based on either a written prescription or non-patient specific written protocol based on a collaborative practice agreement per state law. These orders will be kept on file at the pharmacy.

For influenza vaccine only: An administration fee $20.35 is paid to the pharmacy for influenza vaccinations only. Administrative fees will not be paid for other vaccinations.

The same Administration Fee is applied to In-State and Out-of-State pharmacies.

Through the pharmacy POS system, the pharmacy must submit the code “MA” in the Professional Service Code field for the influenza vaccine claim in order to receive full reimbursement.

There will be NO member co-pay for all influenza vaccines.

Covered Services 2016-2017 Influenza Season:

- Fluzone® (Quadrivalent, Intradermal)
- Fluarix® (Quadrivalent)
- FluLaval® (Quadrivalent)
- Fluvirin® (Trivalent)
- Afluria® (Trivalent, Quadrivalent)

Required NCPDP Fields:

<table>
<thead>
<tr>
<th>NCPDP Field Number</th>
<th>NCPDP Field Description</th>
<th>Required Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>44Ø-E5</td>
<td>Professional Service Code</td>
<td>MA</td>
</tr>
<tr>
<td>4Ø7-D7</td>
<td>Product/Service ID</td>
<td>NDC for Flu Vaccine</td>
</tr>
</tbody>
</table>
2. **Other Vaccines**

The member needs to be 19 or older for the vaccine claims to process. Vaccine claims for members under 19 years old will reject: 70 - ‘PRODUCT SERVICE NOT COVERED Member age less than 19.’

**Prior Authorization**

Prior authorization may be required for all programs except General Assistance and Healthy Vermonters.

All drugs and supplies requiring prior authorization can be identified on the Preferred Drug List. The list and criteria for prior authorization can be found at:

http://dvha.vermont.gov/for-providers/preferred-drug-list-clinical-criteria

All prior authorizations must be faxed to the number below.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Change Healthcare</td>
<td>Prescriber Help Desk</td>
<td>844-679-5366</td>
<td>24/7/365</td>
</tr>
</tbody>
</table>

For updates on the status of a requested PA, you can call the Change Healthcare Prescriber Help Desk at 1-844-679-5363.

**Emergency 72-Hour Fill**

An emergency fill can be dispensed when a required prior authorization has not been secured, and the need to fill the prescription is determined to be an emergency. **If the prescriber cannot be reached to obtain the required prior authorization, the pharmacist may dispense an emergency supply to last up to 72 hours.**

- The pharmacy should send in PA Type Code (461-EU) = 2 and PA# (462-EV) = 72 on the claim, in which case an emergency 72-hour fill is allowed.
- Limit emergency fill to one 72-hour supply per member/per drug for each calendar month.
- If the emergency persists, additional emergency overrides can be done by the Change Healthcare Pharmacy Help Desk.
- Dispensing Fee applies to Emergency Fills
- 'Lost and stolen' is different from Emergency Fill. See “Refill Too Soon” on page 23 for details.
**General Assistance**

Beneficiaries may be enrolled in General Assistance in one of two ways:

- General Assistance only; i.e., there is no other “primary” Medicaid coverage; or
- General Assistance as secondary coverage with another Medicaid program as primary.

Coverage is limited to classes of drugs identified as likely to create an emergency if not covered.

**Generic Substitution Policy**

Vermont law requires that when available, the equivalent generic product should be dispensed. The Preferred Drug List may require a brand to be dispensed in lieu of a generic in limited circumstances when net cost to the state is lower than the generic.

**Statins and Proton Pump Inhibitors (PPIs) - VPharm**

DVHA will only cover the cost-sharing (deductible and coinsurance) for select statins (HMG COA reductase inhibitors) and proton pump inhibitors (PPIs) for VPharm Part D-eligible beneficiaries.

- **Statins** – all dosage strengths of atorvastatin, simvastatin, lovastatin and pravastatin.
- **PPIs** – omeprazole (Rx), pantoprazole, and lansoprazole. If a beneficiary obtained a prior authorization from their Part D Plan for a statin or PPI not on the list above, the drug will be covered by VPharm through the VPharm PA process.
- If no Medicare Part D prior authorization is in place, a VPharm coverage exception may be possible for a non-covered drug but only when a prescriber can detail the conditions that make it strictly medically necessary and/or provide evidence that the VPharm covered drugs are harmful.
**Long-Term Care (LTC) Nursing Home Claims**

LTC nursing home claims are identified by a value of “03” in the PATIENT RESIDENCE field on the claim. The following rules will apply when a LTC claim for Medicaid members is submitted for processing in the pharmacy POS system. It is the LTC eligibility that drives the co-pay responsibility for members.

1. If the member has a valid LTC segment in eligibility and the pharmacy sends the patient residence code of 03 the claim will pay without a co-pay.

2. If the member has a valid LTC segment in eligibility and the pharmacy does NOT send a patient residence code of 03 the claim will pay without a co-pay.

3. If the member does NOT have a valid LTC segment in eligibility and the pharmacy sends a residence code of 03, the claim will pay with a co-pay.

VPharm members residing in LTC facilities are not exempt from copays, because they do not have Medicaid LTC eligibility. Most over-the-counter drugs and supplies are not covered for LTC nursing home patients through POS as they are covered in the patient’s per-diem.

Providers submitting LTC claims are limited to one dispensing fee per patient per covered drug per month (“per month” will be considered 75% of a 34-day supply; this allows the provider a limit of one dispense fee per every 25 days). “Per covered drug” will be considered “per GPI” (Definition: A GPI, or Generic Product Indicator, includes all drugs sharing the same chemical composition, in the same strength, in the same form and that are administered via the same route.) Providers may request an override to the single dispensing fee limit for mitigating circumstances by contacting the Change Healthcare Pharmacy Help Desk at 844-679-5362. Acceptable circumstances for overriding the single dispense fee limit are:

- The physician has increased the dose.
- The medication did not last for the intended days’ supply.
- The drug has been compromised by accident (e.g., contaminated or destroyed).
- The medication is being dispensed due to the patient’s LOA (leave of absence) from the institution.

Except for controlled substances, unused or modified unit dose medication that are in reusable condition and which may be returned to a pharmacy pursuant to state laws, rules or regulations, shall be returned from LTC facilities to the provider pharmacy. The provider should void or resubmit the claim with the appropriate quantity dispense.
Special Claims

Multi-Ingredient Compound Claims

- Each ingredient will be priced at the “lower of” methodology utilizing the benchmark of National Average Drug Acquisition Cost (NADAC). Payment of covered outpatient drugs, including over-the-counter drugs, dispensed by and enrolled pharmacy will include the reimbursement for the Actual Acquisition Cost (AAC) of the drug plus a professional dispensing fee. Pharmacy reimbursement is defined as the lower of:

  a. The National Drug Average Acquisition Cost (NADAC);
  b. The Wholesale Acquisition Cost (WAC) + 0%;
  c. The State Maximum Allowable Cost (SMAC);
  d. The Federal Upper Limit (FUL)
  e. AWP-19%;
  f. Submitted Ingredient Cost;
  g. The provider’s Usual and Customary (U&C) charges; or
  h. The Gross Amount Due (GAD)

- The ingredients’ costs will be totaled and priced at the lower of the calculated cost or the pharmacy’s submitted cost.

- Containers other than syringes are included in the dispensing fee.

- Syringes must be billed as part of the compounded claim. They are not subject to a separate dispensing fee or compounding fee.

- A dispensing fee of $11.13 will be automatically added to all prescriptions submitted with a compound indicator of “2.”

- All compounds must contain more than one ingredient. A diluent for a powdered dosage form will not be considered a compounded drug. Compounds submitted with only one ingredient will reject with a reject code of 76 with local messaging of “Minimum ingredients of 2.”

- Compound indicator must be “2” (indicating a multi-ingredient compound).

- NDC field in claim segment (i.e. Product/Service ID) (not individual ingredients) must contain 11 zeros. If an actual individual NDC is submitted in the Product/Service ID, the claim will reject with a reject code of 70 with local messaging of “Submit 11 zeros in the Product/Service ID and complete compound detail – more than 1 ingredient required.”

- Bulk powders/chemicals/products used in prescription compounding are not covered under the pharmacy benefit program. CMS has clarified that bulk products are not considered covered outpatient drugs because they are not prescription drug products approved under Section 505, 505(j), or 507 of the Federal Food Drug and Cosmetic Act. Pharmacies
must utilize other non-bulk, FDA-approved products for the claim to be covered (for example, tablets or capsules). Pharmacies should ask their wholesalers whether products are listed by First Data Bank with a “HIC3” of “U6W,” or by MediSpan as 3rd Party Restriction of “B,” each of which are designations of “Bulk Chemicals.”

- Bulk powders used to compound products for the **prevention of pre-term labor** will continue to be covered after Prior Authorization in certain situations.

- **Oral Vehicles for Multi-Ingredient Compounded Prescriptions.** DVHA can reimburse you for the following oral vehicles used in compounded prescriptions.

**Submission Clarification Code 08.** Multi-ingredient compound claims will reject if any of the ingredients used in the compound are from a manufacturer that does not offer federal rebate. *If the pharmacy is willing to only be reimbursed for the approvable products, the claim can be resubmitted with a submission clarification code 08.* Any questions about the submission of claims for compounded medications should be directed to the Change Healthcare Prescriber Help Desk at 1-844-679-5363.

**Paper Claims**

VTPOP and VTPARTD paper claims forms can be found online at: [http://dvha.vermont.gov/for-providers/pharmacy](http://dvha.vermont.gov/for-providers/pharmacy)

These forms should be submitted to Change Healthcare for processing at:

- Change Healthcare, Inc.
- 1 Green Tree Lane
- South Burlington, VT 05403

**Specialty Drugs**

Effective 5/1/17, DVHA no longer restricts specialty medications to BriovaRx® and this change expanded the list of pharmacies that can dispense specialty medications. In conjunction with this change, DVHA and Change Healthcare also performed an extensive review of specialty medications. Based on this review, Amicar®, Botox®, Epogen®, Gleevec®, Neupogen®, Neulasta®, Procrit®, Sprycel®, Xeljanz®, and select growth hormones (Genotropin®, Humatrope®, Norditropin®, Nutropin®, Omnitrope®, and Zomacton®) are no longer designated as specialty medications and may now be dispensed by any pharmacy enrolled with Vermont Medicaid.
A current list of designated specialty medications (updated quarterly) can be found at http://dvha.vermont.gov/for-providers/specialtydrugweblist-20170421.pdf. A specialty drug must meet a minimum of (2) of the following requirements:

- The cost of the medication exceeds $5000 per month.
- The medication is used in the treatment of a complex, chronic condition. This may include but is not limited to drugs which require administration, infusion, or injection by a health care professional.
- The manufacturer or FDA requires exclusive, restricted, or limited distribution. This includes medications which have REMS requirements requiring training, certifications, or ongoing monitoring in order for the drug to be distributed.
- The medication requires specialized handling, storage, or inventory reporting requirements.

**Dispensing of specialty medications to Medicaid beneficiaries where Medicaid is the primary insurer, is limited to specialty pharmacies that have nationally recognized specialty certification.**

DVHA requires any Specialty Pharmacy dispensing Specialty Drugs to DVHA members to be Certified by either the Utilization Review Accreditation Commission (URAC); the Accreditation Commission for Health Care (ACHC); or the Center for Pharmacy Practice Accreditation (CPPA).

The following pharmacies are currently authorized to dispense specialty drugs for DVHA members. If your pharmacy is not on this list and you are enrolled and specialty certified, please contact Provider Services at 802-879-4450 and select option 4 or contact Suellen Bottiggi in Provider and Member Service at 802-871-3187.

- Accredo Health Group
- Advanced Care Scripts
- Anovo Rx Group
- Apothecary by Design

- Noble Health Services
- Orsini Pharmaceutical Services
• Pharmaceutical Specialties
• ProCare Pharmacy
• Red Chip of Nevada
• Rutland Pharmacy
• US Bioservices Corporation
• Walgreen’s Specialty
• Wilcox Medical

**Limited Distribution Drugs**

Limited Distribution (LD) drugs are specialty drugs that are restricted by the manufacturer to be dispensed only by a select number of specialty pharmacies. These LD drugs typically have special requirements for dosing, administration, or close patient and laboratory monitoring. Because of these special requirements, drug manufacturers sometimes choose to limit the distribution of their drugs to only one or a few select pharmacies or, as part of the drug approval process, the Food and Drug Administration (FDA) may recommend this type of distribution. This type of restricted distribution allows the manufacturer to properly control the inventory of the drug; educate the dispensing pharmacists about the monitoring required; and ensure any risks associated with the medication are minimized.

**Return to Stock**

When a beneficiary or the beneficiary’s representative fails to pick up a prescription, pharmacies must reverse the claim submitted to DVHA within fourteen (14) calendar days of the date the prescription is filled. The date of service (e.g. the date the prescription is filled) is considered day one. The pharmacy must retain a record of the reversal on file for audit purposes.

**Record Retention**

Pharmacy records (including prescriptions) must be retained by the pharmacy for a minimum of seven (7) years.

**Prospective Drug Utilization Review (ProDUR)**

ProDUR is an integral part of the Vermont Medicaid claims adjudication process. ProDUR includes: reviewing claims for therapeutic appropriateness before the medication is dispensed, reviewing the available medical history, focusing on those patients at the highest severity of risk for harmful outcome, and intervening and/or counseling when appropriate.

Prospective Drug Utilization Review (ProDUR) encompasses the detection, evaluation, and counseling components of pre-dispensing drug therapy screening. The ProDUR system addresses situations in which potential drug problems may exist. ProDUR performed prior to dispensing assists pharmacists in ensuring that patients receive appropriate medications. This is accomplished
by providing information to the dispensing pharmacist that may not have been previously available.

Because ProDUR examines claims from all participating pharmacies, drugs which interact or are affected by previously dispensed medications can be detected. While the pharmacist uses his/her education and professional judgment in all aspects of dispensing, ProDUR is intended an informational tool to aid the pharmacist.

**Therapeutic Problems**
The following ProDUR Reason of Service types will deny for the Vermont Medicaid program:

- Drug-to-Drug Interaction (Highest Severity Levels)
- Therapeutic Duplication

ProDUR Edits that deny may be overridden at POS using the interactive NCPDP DUR override codes (see below).

**DUR Override Processing (NCPDP Reject Code 88)**

When a claim is rejected for a DUR edit, pharmacies may override the denial by submitting the appropriate Professional Service and Result of Service codes.

Below you will find a chart that details the Professional Service and Result of Service codes that will override a claim that has been denied for Drug-to-Drug Interaction and/or Therapeutic Duplication. Note that the designated Professional Service Code must accompany the appropriate Result of Service code as indicated in the chart to allow the override.
DUR REJECT OVERRIDE PROCESSING  (NCPDP Reject Code 88)

The valid DUR Reason for Service Codes for Vermont Medicaid are:

DD - Drug-Drug Interaction  
TD - Therapeutic Duplication

The only acceptable Professional Service Codes are:

    MR – Medication Review  
    M0 – Prescriber Consulted  
    R0 – Pharmacist Consulted Other

Please note that the designated Professional Service Code must accompany the appropriate Result of Service code as indicated below to allow the override:

<table>
<thead>

Days’ Supply

Accurate days’ supply reports are required on all claims. Submitting incorrect days’ supply information in the days’ supply field can cause false ProDUR messages or claim denial for that particular claim and/or for drug claims that are submitted in the future.
**ProDUR Support**

The Change Healthcare Pharmacy Help Desk is available 24 hours per day, seven days per week. The telephone number is 844-679-5362. If you need assistance with any alert or denial messages, it is important to contact the Help Desk about ProDUR messages at the time of dispensing. The Change Healthcare Pharmacy Help Desk can provide claims information on all error messages which are sent by the ProDUR system. This information includes NDCs and drug names of the affected drugs, dates of service, whether the calling pharmacy is the dispensing pharmacy of the conflicting drug, and days’ supply.

The Pharmacy Help Desk is not intended to be used as a clinical consulting service and cannot replace or supplement the professional judgment of the dispensing pharmacist. Change Healthcare has used reasonable care to accurately compile ProDUR information. Because each clinical situation is unique, this information is intended for pharmacists to use at their own discretion in the drug therapy management of their patients.

A second level of assistance is available if a provider’s question requires a clinical response. To address these situations, Change Healthcare staff pharmacists are available for consultation.

**ProDUR Alert/Error Messages**

All messages appear in the claims adjudication transmission. See Payer Specifications for more information.

**Timely Filing Limits**

Most providers submitting point of sale submit their claims at the time of dispensing. However, there may be mitigating reasons that require a claim to be submitted after the fact.

- For all original claims, reversals and re-bills, the timely filing limit is **183 days** from the date of service (DOS).
- Claims that exceed the prescribed timely filing limit will deny.
- When appropriate, contact Change Healthcare for consideration of an override to timely filing limits.
- Requests for overrides will be considered for:
  1. Retroactive beneficiary eligibility
  2. COB delay
  3. Denial date (depending on original adjudication date)
  4. At the State’s request
- Overrides for timely filing limits greater than two years from the date of service will not be authorized.

Requests for timely filing overrides should be mailed to:

Change Healthcare®
1 Green Tree Dr.
South Burlington, VT 05403
Dispensing Limits and Days’ Supply:

- Non-maintenance drugs (Definition: medications used on an “as needed” basis) are subject to a per claim days’ supply maximum limit of 34. There is no days’ supply minimum.

- "Maintenance drug" means a drug approved by the FDA for continuous use and prescribed to treat a chronic condition for a prolonged period of time of 30 days or longer, and includes insulin, an insulin syringe and an insulin needle.

Apart from the select drugs used for maintenance treatment described below, all other maintenance drugs must be prescribed and dispensed for not less than 30 days and not more than 90 days, to which one dispensing fee will be applied. Excluded from this requirement are medications which the beneficiary takes or uses on an “as needed” basis or generally used to treat acute conditions. If there are extenuating circumstances in an individual case which, in the judgment of the prescriber, dictate a shorter prescribing period for these drugs, the supply may be for less than 30 days as long as the prescriber prepares in sufficient written detail a justification for the shorter period. The extenuating circumstance must be related to the health and/or safety of the beneficiary and not for convenience reasons. It is the responsibility of the pharmacy to maintain in the beneficiary’s record the prescriber’s justification of extenuating circumstances. In these circumstances, regardless of whether or not extenuating circumstances permit more frequent dispensing, only one dispensing fee may be billed.

- **Mandatory 90-Day Supply Program:** Select drugs used for maintenance treatment must be prescribed and dispensed in no less than 90-day supply increments. The drug utilization review board makes recommendations to the Department on the drugs to be selected. This limit shall not apply to the first TWO fills (the original and one refill) of the medication in order to provide an opportunity for the beneficiary to try the medication and for the prescriber to determine that it is appropriate for the beneficiary’s medical needs. If there are extenuating circumstances in an individual case which, in the judgment of the physician, dictate a shorter prescribing period, an exception form that identifies the individual and the reason for the exception may be faxed to the Change Healthcare Prescriber Call Center at 844-679-5366.

- The first time a prescription is filled is referred to as the “initial fill” or “first fill,” while subsequent fills are referred to as “refills.” Up to five refills are permitted if allowed by federal or state pharmacy law.

- Claims will deny if the days’ supply limit is exceeded. Exceptions to standard days’ supply limits include:
  - Contraceptives including oral, patch, and rings may be dispensed in a quantity not to exceed a 365-day supply. This does not apply to emergency contraceptives.
  - Under certain conditions, acute opiate prescriptions for patients 18 years and older will be limited to 50 MME per day and a maximum of 7 days’ supply. Patients 17 years of
age and younger will be limited to 24 MME per day and maximum of 3 days’ supply. Please refer to the following communication for further details: http://dvha.vermont.gov/for-providers/opioid-days-supply-changes-final.pdf
  o Drugs provided to residents of a long-term care facility are not subject to the mandatory 90-day supply requirement. Residents of community care homes are not considered residents of long-term care facilities and therefore are subject to the 90-day refill requirement.
  o Requests for overrides should go to the Change Healthcare Prescriber Help Desk 1-844-679-5363.

**Quantity Limits:**

All Quantity Limits are identified in the Preferred Drug List. The Preferred Drug List can be found at http://dvha.vermont.gov/for-providers/preferred-drug-list-clinical-criteria

**Refills:**
- All refills must be dispensed in accordance with State and Federal requirements.
- Refill prescriptions must be dispensed pursuant to the orders of the physician, but not more than one year from the date of the original prescription.
- Refills must not exceed 5 refills (plus one original).
- For DEA code = “3”, “4”, “5”: allow up to 5 refills (plus one original) or 6 months, whichever comes first.
- For DEA code = “2” no refills are allowed; a new prescription is required for each fill.

**Early Refill Overrides (NCPDP Reject Code 79):**
Claims will reject for refill requests when more than the percentage of the previous days’ supply still remains (see chart below). Pharmacies may request an override for claims that reject for early refill. To request an override, pharmacies must contact the Change Healthcare Pharmacy Help Desk at 1-844-679-5362

<table>

**Pharmacy Dispensing Fees**

- The dispensing fee for all retail pharmacies is $11.13
- The dispensing fee for specialty pharmacies dispensing specialty drugs is $17.03
- The administration fee for administering influenza (Flu) vaccine is $20.35
- For 340B eligible drugs dispensed by participating 340B-enrolled pharmacies, the dispensing fee is $11.13, except for Federally-Qualified Health Centers and Planned Parenthood of Northern New England whose dispensing fee is $15.00

- Exceptions:
  - There is a limited dispensing fee for LTC claims; i.e. one per every 25 days per patient per covered drug (per GPI)
  - No dispensing fee for glucometers
**Member Cost Share Information (Copayments)**

Vermont’s publicly-funded drug benefit programs have no deductibles and no benefit maximums.

**Traditional Medicaid:**
When traditional Medicaid coverage is primary, copayments are:

- $1 if allowed amount is equal to or less than $29.99.
- $2 if allowed amount is greater than or equal to $30.00 but less than or equal to $49.99.
- $3 if allowed amount is equal to or greater than $50.00.

**Members with Medicare Part D Plans:**
1) **Full-Benefit Duals:** Full-benefit dual eligible members (those who have both Medicaid and a Medicare Part D Plan) are responsible for copayments up to $8.25 charged by the Part D Plan for 2015. If a member’s Part D Plan is returning copayments greater than $8.25, the member should call Green Mountain Care Member Services at 1-800-250-8427.

2) **VPharm Members:** For members who are enrolled in a VPharm Part D wrap program, Part D plan deductibles and coinsurance should be billed to VPharm.

There are two types of VPharm members: standard VPharm members and VPharm members with Low Income Subsidy (LIS). For members with LIS coverage, the Part D plan should return a maximum patient cost share of $8.25. VPharm will wrap this LIS co-pay and leave the member with a $1 or $2 co-pay as described below.

For further clarification on how VPharm plans interact with Medicare Part D, see: [http://dvha.vermont.gov/for-providers/2012-coverage-grid.pdf](http://dvha.vermont.gov/for-providers/2012-coverage-grid.pdf)

<table>
<thead>
<tr>
<th>Population affected</th>
<th>Prescriptions with DVHA cost share of $29.99 or less</th>
<th>Prescriptions with DVHA cost share of $30.00 or more</th>
</tr>
</thead>
<tbody>
<tr>
<td>VPharm 1, 2 and 3 beneficiaries (VD, VE and VF): DVHA wraps copays from Part D Plan.</td>
<td>$1.00 Co-pay</td>
<td>$2.00 Co-pay</td>
</tr>
<tr>
<td>VPharm 1, 2 and 3 LIS beneficiaries: LIS at Level 1: DVHA wraps copays for Part D plans from $3.30 to $8.25. LIS at Level 2: DVHA wraps copays between $1.20 and $3.70.</td>
<td>$1.00 Co-pay</td>
<td>$2.00 Co-pay</td>
</tr>
<tr>
<td>If a member’s Part D Plan is returning copayments greater than $8.25 for LIS members, the member should call Green Mountain Care Member Services at 1-800-250-8427.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Copay Exceptions (no copayments apply):

- Patient is 20 years old or younger (based on Eligibility File)
- Drug is a family planning drug
- Patient is pregnant or in the 60-day post-pregnancy period (requires a prior authorization obtained by calling Change Healthcare Prescriber Help Desk at 1-844-679-5363)
- Claim is licensed nursing home (LTC) claim (requires Patient Location = “03” on the claim-see section above on Long-Term Care Nursing Home Claims)
- Medical supplies
- Influenza (flu) vaccine

When Healthy Vermonter coverage applies, the beneficiary must pay the full allowed amount.

Note: A pharmacy may not refuse to dispense a prescription to a Medicaid beneficiary who does not provide the copayment. However, the beneficiary will still owe the pharmacy any copayment that is not paid.
Coordination of Benefits

The following provides information on submitting COB claims.

Claim segment and field requirements are detailed in the Consolidated Payer Specification Sheet at http://dvha.vermont.gov/for-providers/medmetrics-health-partners-mhp-billing-information

The state-assigned Other Payer IDs can be found on the Active Payer and PDP Sponsor Lists found at http://dvha.vermont.gov/for-providers. These lists are:

- Insurance carriers / sponsors for COB claims filed under PCN Medicare Part D Plan
- Sponsors for COB claims filed under PCN

Providers may submit up to three segments of information when there are multiple other payers.

Other Payer Coverage Codes (OCC)
Please see the following two OCC billing instruction grids outlining the correct use of OCC codes when billing for members enrolled in Vermont’s publicly funded pharmacy programs. The Other Payer Coverage Code indicates the type of coverage the other insurer is providing for the claim. (See charts below for possible scenarios and circumstances.)

Other Payer Coverage Code (NCPDP Field #308-C8): Required on all secondary claims.

1. VTPOP (previously VTM) – COB 3

VT applies COB 3 option for their Coordination of Benefits for VTPOP plans. Plan IDs VTM01 and VTM05 are VTPOP plans.

Vermont Medicaid is the payer of last resort after other insurers. Claim segment and field requirements are detailed in the VT Payer Sheet and they are located at http://dvha.vermont.gov/for-providers/medmetrics-health-partners-mhp-billing-information
For members who are dual eligible for Medicaid and Medicare, and who have Plan Codes VTM 05 and VTM01: The following OCC codes **are not** appropriate for claims billed to VT Medicaid on a secondary basis.

<table>
<thead>
<tr>
<th>OCC/Description</th>
<th>Processing Policy Vermont Coverage Secondary to Alternate Insurance</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 = Not Specified</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>1 = No other coverage identified</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>5 = Managed Care Plan denial</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>6 = Other coverage Denied, not a participating provider</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>7 = Other coverage exists-not in effect on DOS</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>8 = Co-pay Only</td>
<td>Claim will reject</td>
</tr>
</tbody>
</table>
VT PARTD (previously VTD) – COB 2

VT applies COB 2 option for VPharm Plans (Plan IDs VTD01, VTD02, VTD03, VTD04, VTD05) Coordination of Benefits with Part D plans. The following provides information on submitting COB claims. Claim segment and field requirements are detailed in VT Payer Sheet located at http://dvha.vermont.gov/for-providers/medmetrics-health-partners-mhp-billing-information

Other Payer Coverage Codes (OCC)
Please see the following two OCC billing instruction grids outlining the correct use of OCC codes when billing for members enrolled in VPharm Plans. The OCC indicates the type of coverage the other insurer is providing for the claim. (See charts below for possible scenarios and circumstances.) Other Payer Coverage Code (NCPCP Field #308-C8): Required on all secondary claims. The following OCC codes are not appropriate for secondary claims from Part D Plans:

<table>
<thead>
<tr>
<th>OCC/Description</th>
<th>Processing Policy Vermont Coverage Secondary to Medicare Part D Plan</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 = Not Specified</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>1 = No other coverage identified</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>2 = Other coverage exists, payment collected from primary insurance.</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>4 = Other coverage exists, payment not collected from primary</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>5 = Managed Care Plan denial</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>6 = Other coverage Denied, not a participating provider</td>
<td>Claim will reject</td>
</tr>
<tr>
<td>7 = Other coverage exists-not in effect on DOS</td>
<td>Claim will reject</td>
</tr>
</tbody>
</table>

*The above rejections will produce reject error: NCPDP 13: M/I Other Coverage Code.
These OCC codes are appropriate for secondary claims for VPharm:

<table>
<thead>
<tr>
<th>OCCURRENCE</th>
<th>CORRECT OTHER COVERAGE CODE TO USE</th>
<th>Processing Policy Vermont Coverage Secondary to Medicare Part B and Part D</th>
</tr>
</thead>
<tbody>
<tr>
<td>The primary insurance rejects the claim.</td>
<td>3 = Other coverage exists, claim rejected by primary insurance</td>
<td>Claims submitted with an OCC = 3 will be subject to an edit to determine if drug class is Excluded from Part D coverage by CMS; if so, state will pay claim if all other state criteria are met. If product is not an Excluded Drug from CMS for Part D coverage, state will reject claim. Other Payer Reject Code is required (472-6E) OCC=3 does not apply to Medicare Part B.</td>
</tr>
<tr>
<td>Claim is billing for patient financial responsibility only</td>
<td>8 = Co-pay Only</td>
<td>Requires COB Segment including Other Payer ID and Other Payer-Patient Responsibility Amount fields, and Benefit Stage Fields. Leaving these fields blank is not permitted as it will result in the State paying the claim incorrectly. These claims will be subject to recoupment. Benefit Stage Fields not required for Part B drugs.</td>
</tr>
</tbody>
</table>

**CMS Excluded Drugs, OTC Drugs, Diabetic Supplies**

This would include drugs that Part D does not cover, such as cough and cold preps and OTCs. This also includes members who do not have Part B, but DVHA reimburses diabetic supplies not covered by Part D (example, lancets and strips).

GENERAL INFORMATION AND GUIDANCE

Transmissions

Refer to the NCPDP Telecommunication Standard Implementation Guide Version D. Ø for the structure and syntax of the transaction(s) within the transmission.

Segments

Each segment is listed as mandatory, situational, or optional for a given transaction in the NCPDP Telecommunication Standard Implementation Guide. If the segment is mandatory for a given transaction, that segment must be sent. If the segment is situational, the situations outlined in the guide must be followed for use.

Change Healthcare encourages providers to go to the website at http://www.changehealthcare.com/solutions/pharmacy/payer-documents to view all recent changes to the payer sheet.
Medicare Part B, C and D

Part B:

Vermont program coverage is always secondary to Medicare Part B Coverage. Medicare Part B coinsurance and deductible prescription drug claims with NDCs are processed by Change Healthcare.

Examples of Medicare Part B Covered Drugs:

- Oral Cancer Drugs
- Immunosuppressants
- Nebulizer Solutions
- Diabetic Supplies

To override the “Medicare as primary” requirement, pharmacies must first bill Medicare B, receive a denial, and then contact the Change Healthcare Pharmacy Help Desk at 1-844-679-5362. Pharmacies are no longer able to override at point of sale by entering 88888 in the other payer ID field.

Submission of Part B Secondary Claims (Member has Part B):

Part D:

Effective January 1, 2006, Vermont beneficiaries who were also Medicare-eligible were enrolled in a Part D plan for primary coverage, with only a secondary benefit provided by Vermont programs.

Use an E1 request to determine if the member is enrolled in a Part D plan. If the member is enrolled in a Part D Plan, the E1 response will identify where to send the primary payment request as well as the processing information to submit to Medicaid for any secondary claim.

Vermont Medicaid members who have Part D coverage are eligible for a “wrap” benefit by the state. Depending on a member’s eligibility and the product that you are dispensing, this benefit may be a financial or a formulary wrap to the Part D vendor’s (PDP’s) drug benefit. Generally, coverage parallels coverage in Vermont’s Medicaid program. See the Vermont Pharmacy
Programs Coverage Chart for the most current information:  http://dvha.vermont.gov/for-providers/2012-coverage-grid.pdf

See the Change Healthcare Consolidated Payer Sheet for claims submittal information at: http://www.changehealthcare.com/solutions/pharmacy/payer-documents

**Medicare/Medicaid Eligible without a Part D Plan:**

Point-of-Sale Facilitated Enrollment (POS FE) Process & Limited Income Newly Eligible Transition Program (LI NET):

The POS FE process was designed to ensure that individuals with both Medicare and Medicaid, “dual eligible,” who are not enrolled in a Medicare Part D prescription drug plan, and do not have other insurance that is considered creditable coverage, are still able to obtain immediate prescription drug coverage when evidence of Medicare and Medicaid eligibility are presented at the pharmacy. Other individuals who qualify for the Part D low-income subsidy (LIS) are also able to use the POS FE process. To ensure coverage and allow for billing to a Medicare Part D Plan, follow these steps:

Step 1) Submit an E1 Transaction to the TROOP Facilitator. **Note:** If you are uncertain about how to submit an E1 or enhanced E1 query, please contact your software vendor.

If the E1 query returns a BIN/PCN indicating the patient has current drug plan coverage, **do NOT submit a claim to the POS FE process.** If the E1 query returns a Help Desk telephone number, this indicates the individual has been enrolled but the 4Rx data is not yet available. Please contact that plan for the proper 4Rx data.

If the E1 query does not return a BIN/PCN indicating the individual has current drug plan coverage, go to step 2.

Step 2) BIN/PCN to submit claims for the 2011 - Current Limited Income Newly Eligible Transition (LI NET) Program:

BIN: 015599  
PCN: 05440000  
ID Number: Medicare HIC Number  
Group Number: may be left blank

More information on the LI NET program is available online at the following location: https://www.cms.gov/LowIncSubMedicarePresCov/03_MedicareLimitedIncomeNET.asp, or by calling the LI NET Help Desk at 1-(800)-783-1307.
Part C:

Medicare Part C consists of several Medicare Advantage Plan choices that are Medicare-approved and administered by private insurance companies.

- The Medicare Advantage Plans will replace Part A and Part B for members who choose to join. Some Medicare Advantage Plans also include drug coverage (Part D).

- For those plans that do not include Part D drug coverage, the member will need to have a separate Part D Plan in order to receive a pharmacy benefit.

When a beneficiary is covered by both Medicare B and D, drug claims must be processed by the appropriate insurer prior to submitting any balances to Change Healthcare®. DVHA will closely monitor this process.
**Payer Specifications**

Please refer to the most current Payer Specifications document on the following link on the Provider Services and Claims Processing Page at:

The Payer Specifications include details on claims submissions, host information, claims processing messages, submission clarifications, DUR information, DUR service codes, and COB messages.
**Pharmacy Reimbursement**

Effective 4/1/2017 and in compliance with CMS-2345FC, the Covered Outpatient Drug Rule, DVHA uses the following price calculation methodology for all drugs and plans. More information on this rule can be found on DVHA’s website at [http://dvha.vermont.gov/for-providers/pharmacy](http://dvha.vermont.gov/for-providers/pharmacy).

Payment of covered outpatient drugs, including over-the-counter drugs, dispensed by an enrolled pharmacy will be reimbursed at the lower of:

a. The National Drug Average Acquisition Cost (NADAC);
b. The Wholesale Acquisition Cost (WAC) + 0%;
c. The State Maximum Allowable Cost (SMAC);
d. The Federal Upper Limit (FUL)
e. AWP-19%;
f. Submitted Ingredient Cost;
g. The provider’s Usual and Customary (U&C) charges; or
h. The Gross Amount Due (GAD)

**Secondary Claims (claims when other insurance is primary) * **

1. Part D: For secondary claims when the Part D plan is the primary payer, Vermont Medicaid pays the amount designated in the claims “Other Patient Pay” field, reduced by any copayment made by the beneficiary.

2. Non-Part D: When other insurance is the primary payer, Vermont Medicaid pays the allowed amount as determined in the above payment algorithm reduced by the primary insurance payment, reduced by any copayment made by the beneficiary.

* See Coordination of Benefits, pages 24-26

**Provider Reimbursement Schedule**

The payment and Remittance Advice schedule is weekly.
Appendix A

VPharm II / VPharm III
