

EVV

IN VT

Starting July 1st, 2022, timesheets without matching EVV data will not be processed for payment.

IMPORTANT NOTICE: YOUR IMMEDIATE ATTENTION REQUIRED

EVV IS REQUIRED

If you provide services in these Medicaid programs

- ◆ **Attendant Services**
- ◆ **Brain Injury**
- ◆ **Children's Personal Care**
- ◆ **Choices for Care**

EVV is required every time a service is provided, unless services are provided entirely outside of the home or if you live in the home with the care recipient.

USE EVV TO RECORD ALL VISITS

You can choose to use EVV for all your services, even those that occur entirely outside of the home. EVV provides an easy way to record visit start and end times.

EVV & TIMESHEETS

Beginning July 1st, 2022, ARIS will contact your employer if your timesheet has missing or incorrect EVV data. ARIS cannot process your timesheet until the correct EVV data is added. To avoid any delay in payment begin using EVV today.

Visits on your timesheet must have matching EVV data in the EVV Portal. If EVV data is missing, your employer will be able to make changes manually. Timesheets without any EVV data can be changed for a short period of time.

You must use EVV at the time a service is provided because adding EVV data after the visit will not be allowed in the future.

START USING EVV

Use the EVV app or landline to record your home-based visits. You could choose to use EVV to record all of your visits, even those that occur entirely outside the home.

SUBMIT YOUR TIMESHEETS

EVV does not replace your payroll responsibilities. Think of EVV as a time clock that simply records visit start and end times.

If you choose to use E-Timesheets and make EVV corrections before 2am every Sunday, the corrected EVV visits will feed automatically into E-Timesheets.

Save time by using EVV & E-Timesheets together!
