

Non-Emergency Medical Transportation (NEMT) Per Member Per Month Payment Methodology

The NEMT contractor payments will be calculated using the following method:

1. Each week, DVHA will generate a report of the total number of unduplicated individuals served by the contractor over the prior 365 days.
2. DVHA will multiply the number of unique recipients by the PMPW dollar amount (\$34.47 per unique member per week) and include the payment in the following week's electronic payment to the contractor's bank account.
3. DVHA's Fiscal Agent will also send weekly Remittance Advice documents to the contractor.
4. In the event that the weekly payment cannot happen due to data or processing errors, DVHA will send the payment the following week. DVHA agrees to make these payments on a weekly basis, but it will not be considered a breach of contract if DVHA postponed a payment for one week due to a data or processing error.
