**Changes to Coverage for COVID-19 At-Home Test**

Effective February 15, 2024, the Vermont Medicaid program will change the number of over-the-counter (OTC) COVID-19 self-tests allowed per prescription to 4 tests, every 15 days. This change in coverage will continue to allow 8 OTC COVID-19 tests every 30 days. Additional tests may be covered when medically necessary with prior authorization.

Pharmacies must follow the NCPDP standard and use the NDC or UPC product codes found on the package. Copayment **will not** apply, and the coverage limit is no more than 4 tests every 15 days.
