## **EVV is Electronic Visit Verification.**

EVV is a telephone and computer-based system that records details about home-based personal care visits. Care providers will use a smartphone app or landline to record the time they arrive and leave the home.

**As an employer, you will use an EVV Portal Website to review, correct, and approve these visit details.**

## **Employer EVV Training Is Available Now**

## What about Home & Community Care?

Care often starts or ends in the community, such as picking up or dropping off a prescription at a pharmacy.

EVV is required if care services are provided in the care recipient's home but start or end in the community.

**EVV is not required when services are provided entirely outside the home.**

## What Programs will use EVV?

Children's Personal Care  
Choices for Care  
(Flexible Choices & Moderate Needs Group)  
Attendant Services Program  
Traumatic Brain Injury Program

**EVV is required by law by January 1st, 2021. EVV is not required when the care provider lives in the home with the care recipient.**

## Will I still need to use E-TimeSheet Portal?

Yes. EVV and E-TimeSheet Portal are not the same.

EVV records the time a care provider starts and ends services.

E-TimeSheet Portal is used only for payroll.

EVV data will automatically go into the E-TimeSheet Portal. This will save care providers and employers time when completing and approving timesheets.

You can still use EVV with paper timesheets if you prefer.

**Contact ARIS Solutions to enroll in E-TimeSheet Portal.**
