

# What is EVV?

## EVV is Electronic Visit Verification

EVV is a telephone and computer based system that helps make sure people are getting the personal care services they need by logging information about services performed and hours worked for each visit.

EVV does not change the way care is provided to you.

### How does it work?

Employees can use a telephone to log information about each visit

Employees can use a mobile device to log information about each visit

Employers and employees can view visit details online

### What programs will use EVV?

Children's Personal Care

Choices for Care (including Flexible Choices & Moderate Needs Group)

Attendant Services Program

Traumatic Brain Injury Program

### Why is Vermont implementing EVV?

This is a requirement of a federal law called the 21st Century Cures Act.

All states must have EVV systems for workers who provide certain in-home Medicaid services in place within the next year.
