SCOPE OF WORK TO BE PERFORMED

1. Definitions

1. “Accountable Care Organization” or “ACO” means an organization of health care providers that has a formal legal structure, is identified by a federal Taxpayer Identification Number, and agrees to be accountable for the quality, cost, and overall care of the patients assigned to it.
2. “All-Payer Model” or “APM” is the negotiated agreement between the State and the Centers for Medicare and Medicaid Services (CMS) to test an alternative payment model through ACOs. Under this agreement, Medicare, Medicaid, and commercial payers within the State of Vermont incentivize health care value and quality under the same payment structure for most providers throughout the State.
3. “Blueprint for Health” or “Blueprint” means the State's program for integrating a system of health care for patients, improving the health of the overall population, and improving control over health care costs by promoting health maintenance, prevention, and care coordination and management.
4. “Community Collaborative” (sometimes referred to as an “Accountable Community for Health) means the locally led group of community partners and stakeholders who meet regularly to integrate health care and human services, align quality improvement initiatives, improve care coordination activities, and strengthen community health infrastructure. The Community Collaborative is tasked with developing and implementing collaborative strategies for achieving the state population health and ACO goals within their local health service area, using the Accountable Communities for Health framework.
5. “Community Health Team” or “CHT” means staff in the local Health Service Areas supported by Blueprint insurer payments, including staff supported through the Medication for Opioid Use Disorder (MOUD) and Pregnancy Intention Initiative. These staff supplement services available in Patient-Centered Medical Homes (PCMHs) and link patients with services for non-medical health-related social needs. They may be embedded with primary care practices or centralized in the HSA.
6. “Health Service Area” or “HSA” refers to the distinct geographic regions described in Section 4.1.4 or the Vermont Blueprint for Health Manual.
7. “Hub and Spoke Model” refers to Vermont’s system of regional Opioid Treatment Programs (Hubs) and Office-Based Opioid Treatment in community-based primary care and specialty Practice settings (Spokes) where prescribing teams provide MOUD and health home services, including care coordination, for Vermonters with opioid use disorder.
8. “Medication for Opioid Use Disorder” or “MOUD” means the use of medications, in combination with counseling and behavioral therapies, to provide a holistic and patient-centered approach to the treatment of opioid use disorder. This was known previously as “Medication Assisted Treatment” or “MAT.”

9. “Patient-Centered Medical Homes” or “PCMH” means primary care Practices that have achieved recognition by the National Committee for Quality Assurance (NCQA) for meeting and/or maintaining standards of excellence in primary care.
10. “Patient-Centered Specialty Practice” or “PCSP” means a specialist Practice that has been recognized by NCQA for demonstrating patient-centered care, clinical quality, and care coordination.
11. “Practice” means a health care provider or group of providers located at a single geographic location.
12. “Pregnancy Intention Initiative” means a program for improving health outcomes for women and other people who can become pregnant that includes Obstetrics and Gynecology (OB/GYN) health care providers and primary care providers in the Blueprint. Participating providers deliver preventive care, social drivers of health screenings, comprehensive family planning counseling, and access to long-acting reversible contraception, when chosen by the patient and clinically appropriate. This program was formerly known as the Women’s Health Initiative or WHI.
13. “Program Manager” means the individual, hired by the Subrecipient, who is responsible for the implementation of this Grant Agreement.
14. “Quality Improvement Facilitator” or “QI Facilitator” means a Blueprint-funded professional who works directly with primary care practices, specialty practices, and community collaboratives to coordinate quality improvement (QI) activities and support practices in meeting Blueprint for Health participation requirements.
15. “Vermont Health Information Exchange” or “VHIE” means the secure, statewide data network which gives health care providers, ACOs, and other approved users the ability to electronically exchange and access medical records.

<https://humanresources.vermont.gov/compensation/expense-reimbursement>.

6. The Subrecipient must submit the Subrecipient Grantee Financial Monitoring Report (provided by the State) monthly to the State Fiscal Manager.

7. Reimbursable Expenses. The Subrecipient will be reimbursed for actual, reasonable, and necessary travel and expenses incurred in the conduct of official business under this Grant Agreement, subject to any limits set forth in this agreement. Economy, prudence, and necessity shall be of primary concern when planning and paying for travel and expenses under this agreement. Beyond assuming a reasonable level of safety and convenience for the Subrecipient, every effort should be made to keep travel and expenses to a minimum; the use of grant funds for purchases that are inherently personal in nature or to accommodate personal comfort and taste is not permitted. This does not restrict or prohibit the lawful and necessary travel expenses of qualified individuals for “reasonable accommodations” pursuant to the Americans with Disabilities Act (ADA).

8. Timeliness of Claims. To ensure proper and timely accounting of State and Federal funds, the Subrecipient is expected to submit expense reimbursement requests in the invoice immediately following that date the expense was incurred.

9. Documentation. The primary responsibility for expense documentation resides with the Subrecipient. As funds issued under this agreement are subject to audit by federal agencies, internal and external auditors, and others, thorough documentation (ie. who, what when, where, why and how much) and accounting is required.

- a. All requests for reimbursement of travel and expenses require itemized receipts and proofs of payment to substantiate the expenses.
- b. Credit card statements alone are not sufficient documentation due to lack of itemization.

GRANT # 03410-2625-25

- c. Documentation must include all required travel authorizations and pre-authorizations for non-travel business expenses.
- d. For airfare, travel itineraries or online quotes alone do not constitute proof of payment.
- e. Hotel bills must be detailed with charges itemized and indicate proof of payment.
- f. Electronic receipts for purchases made via websites are acceptable provided they identify the vendor, buyer, date of purchase, item(s) purchased, and amount paid, along with proof of payment indication.
- g. Any unallowable expense items included on bills/receipts must be deducted and not submitted for reimbursement.
- h. If attending a conference, include the conference brochure, agenda, etc. to substantiate the business purpose.
- i. It is not appropriate to round off amounts or to estimate expenses when requesting reimbursement.
- j. In the limited instances where receipts are not required, the Subrecipient must still report only the actual amounts paid and itemize these expenses:
 - i. Expense items not requiring receipts include nominal amounts for tolls, parking meters, subways, shuttles, and tips.
- k. If a receipt is lost, misplaced or damaged beyond legibility, the Subrecipient is responsible for contacting the vendor and requesting a copy of the receipt.

10. Mode and Route of Travel. The Subrecipient shall not be reimbursed for additional expenses that are incurred due to travel routing that is for the sole convenience of the traveler(s), including indirect travel routes, stopovers or leaving earlier/returning later than necessary, unless there is sufficient documentation that the cost of the entire trip (including transportation, lodging, meals, incidentals, etc.) is no more than the costs would have been without the personal convenience. Calculations that justify the cost effectiveness of any personal convenience must be included with the expense documentation. Business class, first class and other premium modes of travel or fees charged for preferred seating are not allowable expenses.

11. Lodging. When a room is shared with a person who is not currently performing services under this Grant Agreement, the Subrecipient is entitled to reimbursement at the lesser of the single room rate or the actual cost for just the Subrecipient's lodging. When a room is shared by individuals performing services under this Grant Agreement, the names of all individuals must be provided with the hotel bill. One claim may be made by the Subrecipient for reimbursement for the entire cost of the lodging or, if practical, reimbursement may be calculated on a pro-rated share of the total allowable cost. Suites or larger non-standard rooms may be allowable provided there is documented cost savings over the price of multiple standard rooms. Charges resulting from a failure to observe check-out times, negligence in not cancelling a guaranteed reservation, or property damages caused by the Subrecipient will be considered an unnecessary expense and ineligible for reimbursement. Overnight in-state lodging is reimbursable when the Subrecipient's employee is required to work significantly beyond their normal work schedules (including travel time) and at a location that is not their official workstation that is at least 40 miles from the employee's residence.

12. Meals. The Subrecipient is entitled to reimbursement of meals for employees on authorized travel under the terms of this Grant Agreement for actual costs incurred up to the State's maximum rates at the time of the expense listed at <https://humanresources.vermont.gov/compensation/expense-reimbursement>. The maximum meal reimbursement rates are inclusive of all food, non-alcoholic beverages, services, taxes and

gratuities. Different rates are established for breakfast, lunch and dinner, in-state and out-of-state under the following conditions:

- a. Breakfast may be an allowable expense on the departure date for travel requiring an overnight stay, or for travel not requiring an overnight stay, if it is necessary for the Subrecipient's employee to begin travel more than 2 hours earlier than the start of their normally scheduled workday.
- b. Dinner may be an allowable expense on the return date from travel requiring an overnight stay, or for travel not requiring an overnight stay, if the Subrecipient's employee is unable to return to their residence or official workstation until at least 2 hours later than the end of their normally scheduled workday.
- c. Alcohol is never an allowable cost for meal reimbursement.
- d. The Subrecipient shall be reimbursed for its employee's out-of-pocket meal expenses incurred during authorized participation in conferences, meetings, seminars, conventions, trainings, etc. without regard to location of the meal or maximum limit, provided the meal is a necessary part of the event and for which participants have no control over the cost of the meal.

13. Registration Fees. Registration fees required for State-approved participation in conferences, meetings, seminars, conventions, trainings, workshops, trade shows, etc. that are directly related to the terms of this Grant Agreement are allowable expenses when supported by adequate documentation.

14. Non-Travel Business Expenses. When in the best interests of performing the terms of this Grant Agreement and approved by the State, the Subrecipient may be reimbursed for purchases of non-travel business expenses **not to exceed \$200** per purchase, except as otherwise allowed above. Examples of non-travel business expenses include supplies, tools, equipment, postage, food or refreshments, professional dues, and memberships or subscriptions directly related to the terms of this agreement. All reimbursement requests must have a clear, documented business purpose and be accompanied by receipts, proof of payment and/or other appropriate documentation to substantiate the expense. Transactions or invoices must not be split in an attempt to circumvent the \$200 threshold.

15. Licenses. Professional and occupational licenses are ineligible for reimbursement.

16. Unallowable Personal Expenses. All expenses must have a valid business purpose. The State will not reimburse or pay for travel and expenses that are inherently personal in nature.

17. The State will monitor the Subrecipient to ensure compliance with financial performance requirements of the program and identify any failures in the administration and performances of the award. The monitoring plan will serve to identify whether Subrecipient needs technical assistance. Monitoring will be used to document allowable and unallowable costs, time and effort reporting and travel. Monitoring will also be used to follow up on any findings identified in earlier monitoring visits, document reviews, or audits to ensure that Subrecipient took corrective action. The monitoring plan may include on-site visits, follow-up, document and/or desk reviews, third-party evaluations, technical assistance, and informal monitoring such as email and telephone interviews. The State will provide templates for collecting data and documentation.

18.7 *Business Associate* is prohibited from directly or indirectly receiving any remuneration in exchange for an *Individual's PHI*. *Business Associate* will refrain from marketing activities that would violate HIPAA, including specifically Section 13406 of the HITECH Act. *Reports* or data containing *PHI* may not be sold without Covered Entity's or the affected Individual's written consent.

18.8 The provisions of this Agreement that by their terms encompass continuing rights or responsibilities shall survive the expiration or termination of this Agreement. For example: (a) the provisions of this Agreement shall continue to apply if Covered Entity determines that it would be infeasible for *Business Associate* to return or destroy *PHI* as provided in Section 14.2 and (b) the obligation of *Business Associate* to provide an accounting of disclosures as set forth in Section 12 survives the expiration or termination of this Agreement with respect to accounting requests, if any, made after such expiration or termination.
