The Health Care Provider Stabilization Grant Program allows applicants to request reimbursement for a broad range of items and services purchased to prevent, prepare for, and respond to COVID-19. An expense that is likely to be eligible must meet all three of the requirements below:

- Must be a COVID-19-related expense
- Must be an actual expense incurred during the application period of March 1, 2020 through September 15, 2020
- Must be either a new cost OR the marginal increase of a normal cost
  - A New Cost means a COVID-19-specific cost your entity did not have prior to COVID-19
  - A Marginal Cost means the incremental costs incurred when producing additional units of a good or service. In the case of COVID-19, it specifically means the additional costs (above normal operating costs) that you had because of COVID-19.

### Likely to be Eligible (Including, but not limited to):

- Supplies used to provide health care services for possible or actual COVID-19 patients;
- Equipment used to provide health care services for possible or actual COVID-19 patients;
- Workforce testing and training;
- Developing and staffing emergency operation centers;
- Reporting COVID-19 test results to federal, state, or local governments;
- Building or constructing temporary structures to expand capacity for COVID-19 patient care or to provide health care services to non-COVID-19 patients in a separate area from where COVID-19 patients are being treated; and
- Acquiring additional resources, including facilities, equipment, supplies, health care practices, staffing, testing, and technology to expand or preserve care delivery.

### Not likely to be Eligible:

- Any billable costs;
- Training for the purposes of training individuals to pursue the same activities as their paying careers (for example, vocational, academic, or professional training);
- Training conducted for only a brief period, or at irregular intervals.
- Normal operating costs;
- Unemployment Insurance;
- Vacation buybacks and other types of staff bonuses;
- In most cases, permanent renovations are not eligible unless the Applicant can demonstrate that the work can be completed in time to address COVID-19 capacity needs and is the most cost-effective option; and
- Any future or anticipated costs.
