

P-2423 Processing Eligibility Decisions (Continued)E. Reviews

Policy at M132 establishes the maximum time between reviews for various types of cases. Cases with unusual circumstances may be reviewed more often than normal, at your discretion.

Each month ACCESS will generate review letters (DSW 202RL) for cases due for review the following month. Mail the review letters with the appropriate forms and schedule in-person or telephone interviews as appropriate (M124). See P-2402 A and B for Review Processing.

If you do not update the Medicaid review date in ACCESS by adverse action deadline in the month of review, the case will close automatically.

- If the eligibility review results in continued eligibility for all recipients:
 - Update the STAT as needed.
 - Update the Medicaid Eligibility panels with new closure/review reason and date for each member.
 - Mail notice of decision (DSW 220 or DSW 220MD) to include the new review date.

NOTE: With each DSW 220 or DSW 220MD, include a DSW 220S (Notice About Psychiatric Services).

- If the eligibility review results in continued eligibility for some, but not all recipients:
 - See P-2422 E for ANFC-Related Financial Eligibility
 - Update STAT panels as needed.
 - Update Medicaid Eligibility with new closure/review reason and date for each member.
 - See P-2423 C Closures.

- If the eligibility review results in excess income:
 - See P-2422 E for ANFC-Related Financial Eligibility
 - See P-2423 C for Closures.
 - See P-2424 for spend-down procedures.

- If the eligibility review results in the ineligibility of all previously eligible members:
 - See P-2423 C Closures.
